INVITATION

It is a matter of great pleasure to invite you to the **12th International Conference on Ecology and Environment (ICEE 2026)** organised by International Foundation of Environment and Ecology, Kolkata *in Association with* Global Warming Reduction Centre (GWRC) on December 11- 12- 13, 2026 *via* Google Meet.

CONCEPT

Rapid Industrialization and Urbanization has led to climate change all over the world. Climate Change has drastically altered the ecosystems, caused unprecedented and irreparable damage to environment. The need of the hour is to build resilient society and prioritize on Sustainable Development.

The urgency to adopt robust climate risk assessment and management strategies is echoed in both scientific research and international climate discussions. Sustainable Development Goals (SDGs) emphasize the critical need for climate action, advocating for enhanced resilience and adaptive capacity to climate related hazards. Building resilience requires the enhancement of both technical and political capacities to implement comprehensive policies that include participation from all stakeholders.

Building resilient societies and pursuing sustainable development are intrinsically linked to addressing global climate change. By integrating climate adaptation and mitigation into all aspects of development, we can create a sustainable future for all.

Against this backdrop the 12th International Conference on Ecology and Environment (12th ICEE) has been orchestrated during 11- 12- 13 December, 2026 via Google Meet on "Global Climate Change: Resilient Society and Sustainable Development."

The conference will be an ideal forum to disseminate information, exchange and share ideas among the erudite personalities, environmentalists, academicians and research scholars on different aspects of environment and forest management needed for sustainable development.

The Conference will cover a wide range of topics, highlighting numerical and experimental results, as well as new technologies in the fields of Environment, Forest and Sustainable Development.

The three days' conference will comprise of oral and poster sessions, plenary and keynote speeches.

CONFERENCE GOALS

The goals of the 12th International Conference on Environment and Ecology (ICEE 2026) are:

•To generate new knowledge related to understanding the background and causes of different ecological and environmental events at the local and global level.

•To bring together the world's leading scientists, economists, and policy experts to explain the often-neglected debate on environmental and ecological issues.

•To share the results of the conference with policymakers, civic and business leaders, and the interested public in order to arrive at constructive and progressive approaches to abate environmental problems and ensure sustainability.

•To set the groundwork for future conferences and publications on environmental and ecological issues.
